Introducing Yellowfin

Yellowfin is a Business Intelligence platform that makes discovering and sharing insights easy.

You expect your Business Intelligence (BI) solution to convert data into insights. However, finding insights is only half the puzzle. Data-driven insights are only valuable when shared. Empower the right people to take the right action, at the right time, with Yellowfin.

Transform your data into rich visualizations and interactive dashboards. Answer your organization's most important questions. Then share, collaborate and make data-driven decisions with Yellowfin.

Yellowfin is a modern BI platform that empowers business analysts and business users to work together. Yellowfin makes data more accessible, valuable and actionable - for everyone.
